League Members Discuss November Propositions

Speaking engagements on ballot measures fill the October calendar of the Speakers' Bureau of the Torrance League of Women Voters. Women's clubs, homeowners' associations, and church groups have invited League speakers to explain and give pro and con arguments on the November ballot at meetings of their organizations this month.

Two members of the Torrance League, Mrs. Warren Shallice and Mrs. Albert Nadel, will participate in a Los

Angeles Adult School program on ballot measures at San Pedro High School, Oct. 27.

Pros and cons on the propositions will once more be presented at a public meeting scheduled by the Torrance League for 7:45 p.m., Oct. 28, at the Torrance Recreation Center.

BALLOT measure speakers are Mmes. Frank Barnes, B. E. Belzer, Donald Brink, Robert Gordon, C. R. Thompson, Austin Woodward, Shallice, and Nadel.

Fifteen student teachers from California State College at Long Beach have been assigned to Torrance classrooms this fall. They will serve at four elementary schools and one high school.

She pointed out that Girl Scout groups request league speakers on government and responsibilities of citizenship. Times have changed.

The telephone no longer looks the way it did back in 1925. And it no longer performs the same way, either. In those days, for instance, it took about eight minutes to complete the average long distance call. Today, with Direct Distance Dialing, the average call goes through in about seventeen seconds. Quite a difference. And it's particularly impressive when

you remember that, at the same time, long distance rates have been substantially reduced. In 1925, a 3-minute daytime call from San Francisco to New York would have cost you \$16.50. Now the same station-to-station call costs only \$2.25, plus tax. These are only some of the many changes that have been made in your telephone service. And more are on the way.

In the years ahead, a wide variety of telephone changes will be introduced—some of them big, some small—but all aimed at making your telephone service better and better.
